

Together We Can Restore Hope in Our Community

OUR PURPOSE:

The Mission of Hope House of WI, Inc is a place that provides refuge, education, links individuals with the available resources, and empowers people to develop their own strengths. Everyone needs the tools to be self-sustainable, and together our community can help by offering a hand up to one another.

On behalf of our community, we provide temporary housing to homeless individuals and families, support, and connections to available resources. We want to empower everyone to give back to our community. Mission of Hope House is a place connecting resources with family needs.

For information on how to donate or for volunteer opportunities to empower our community
